

## **Interest session on Complete Streets**

April 12, 2021

The Village of Potsdam invites all interested residents to join in an interest session as the municipality looks to form a Complete Streets Working Group to help guide infrastructure development.

Whether your favored mode of transportation is by foot, bike, wheelchair, car, or with a stroller in tow—your insights matter. Our streets, sidewalks and trails are for everyone. As we work to make the Village of Potsdam safer and more accessible to all, we hope to engage residents in this important work.

Join us to find out more about how to get involved:
